- CliC: Climate and Cryosphere

PPW History

5th PPW

Sea Ice Prediction Network - SIPN

- 2018: Montreal (QC), Canada
- 2017: Bremerhaven, Germany.
- 2016: Palisades (NY) USA.
- 2015: Reading, UK.
- 2014: Boulder (CO), USA

Monday - Tuesday

Scientific Presentations

Wednesday

Consensus Forecast

End-Users Panel

PPW Objectives

- Identify/quantify sources of predictability on sub-seasonal to inter-annual timescales
- Identify skills and challenges for current and future forecasting systems.
- Bring together academics, operational forecasters, stakeholders and end-users to discuss needs, establish a common language and discuss predictability of sea ice.

Practical Things

- 20 min talks: 15 min + 5 min discussion.
- Presenters: Please repeat questions on the microphone.
- Remote attendees: Please mute microphone.
- Light breakfast-coffee and lunch catered.
- Dinner on Tuesday - please see Amelie-Charles-Juliane if you are interested. Dinner is at Kalbi (Korean BBQ) at.
- All cups, plates and utensils used during the conference are compostable. Please use the compost bin and put nothing in the recycling or garbage.
- No garbage in the compost bin. We will be fined for contamination.
- Poster walls, bathrooms and catering are in the sister room.
- Metro, (more) food and bathrooms are located just south.
- Poster will be at 4:00PM today. Please set-up Posters during the breaks or lunch time. Please keep your poster up for the full workshop.
- Workshop ends Wednesday at 12:30PM.
