Wednesday, 9 May

SESSION 11: Meeting the needs of End-users Panel & Discussion (Chair: W. Merryfield)

9:00 – 10:20

Panel:

David Fowler - Canadian Coast Guard (Ret.), Fowler Marine Inc.

Tim Keane - Fednav

Gilles Langis - Canadian Ice Service

Lawrence Hislop - CliC

Panel Members introduce themselves (5 min)

Tim Keane: activities at Fednav (10 min)

Lawrence Hislop : outcomes of Tromso Arctic Sea Ice Prediction Stakeholders Workshop (10 min)

Gilles Langis : summary of CIS needs for model guidance (10 min)

Questions for discussion (45 min)

1 (to all): What is the best way to co-develop forecasts between forecasters and end users? Any experiences with this?

2 (to end users): What is your single most pressing need for sea ice forecast information more than 1 week in advance?

3 (to forecasters): What sea ice forecast information do you have (or can develop) that you view as having high potential for end-users? End users provide feedback.
